I met Hon. Phisoa a Cgwihaba/Ministry yesterday. My colleagues tell me that the meeting went well. But the main observation is that the ministry side except for the environmental dept were not aware that there were no legal barriers to issuing the licences to Cgwihaba and that the reports filed with UNESCO up to the first quarter of this year are inaccurate. The latter would have to be retracted because it leaves the Cgwihaba under an obligation to correct the mistatements in the report. The officials may find a way to do it without too much reputational damage but our board thinks that the minister should intervene in this matter to expedite the issuance of the licences since both sides appear to .now have a common interpretation of the law. The board is a... [Read more](#)

As you may be aware I have been away from the office and expect a good brief on Monday when I get back. For the record I am not holding back any licences. If there are any presented to my office and I have questions I immediately call officials and it is dealt with. Such has not happened and I hope now that you indicate fruitful discussions with officials, then I shall get immediate briefing. To that effect I cannot take any calls until then. It is in both our interests that this issue is resolved amicably at the earliest convenience. Regards.
