Yesterday

Hi Hon. Just curious if there is any movement on the side of the Ministry on the MDCB application. I think the challenge on the Tsodilo side is to manage stakeholders because the guys do not know what to say about the continuity of the project.

Today

I will be surprised if the guys are lost for words in terms of a highly lucrative project like that, unless they don't believe what they told us. MDCB application must be turned into a Cab Memo and they have been advised.

7:35 am

Thank you. I will advise them the same.
